Ideal for floors, walls and ceilings.

A5 Combination Mop

Designed to clean hard floors, both dry and wet.

## MCT Products – Care Instructions

- All MCT products should be washed with an enzyme powered washing detergent.

- DO NOT USE bleach or fabric softener, it will destroy the microfibres.

- MCT products **can be washed over 300 TIMES prior to being replaced.**

For more details on washing instructions, contact your local sales representative.

## Occupational Health & Safety

- Microfibre Cleaning Technology **improves the occupational health and safety of your working environment.** Cleaning with microfibre takes the heavy work out of cleaning .

- All MCT products are **lightweight.** For example, a flat mop and handle weighs less than 2kgs.

- By reducing chemical use by 90% MCT **dramatically reduces the exposure of cleaning staff to potentially harmful chemicals**

- MCT leaves NO chemical residue or excess water on the surface layer. Not only does this help keep the surface clean but will also improve safety.
